Entry Category: Architectural Design

Title: Community National Bank & Trust of Texas – Waxahachie Branch

Description of Project:

Community National Bank and Trust of Texas opened their brand new two story 29,000 square foot branch and office complex in Waxahachie in early May. PhaseOne Design Builders partnered with the bank to provide a substantial investment in Waxahachie community through banking and class A office space. The city was exploding with growth and a need for class A office space was desired for which this building provides. This is a 5,000 square foot future ready bank with a two story office complex totaling 29,000 square feet. The architectural design is contemporary and is branded with brick and stone similar to their home office in Corsicana, Texas. The branch features dialogue teller stations, a café office, and a considerable multipurpose training room. Since its grand opening in May, the office space of the bank building is nearly entirely leased with professional tenants. Community National Bank and Trust of Texas' collaboration with the City of Waxahachie provides a major commitment in both need and growth in the area.

Project Summary:

Community National Bank and Trust of Texas partnered with PhaseOne Design Builders to opened their brand new two story 29,000 square foot branch and office complex in Waxahachie, Texas in early May. Community National Bank and Trust of Texas has made a major commitment in Waxahachie providing state of the art banking and class A office space. The branch side features dialogue teller stations, café offices, and a flexible multipurpose training room.
