

Summary

Against the backdrop of a global pandemic and an unprecedented economic collapse, Lamar National Bank, a rural-based Texas community bank utilized its best assets – it’s people – to help support it’s community during the worst of times. The five most prized traits of our employees (flexibility, adaptability, entrepreneurship, team oriented and results driven) yielded incredible results at a time when our community needed it most. As a result of our team living our mantra of “Relationship Banking at its Best”, our bank was in the top 2% of asset growth in the US in our peer group. Lamar National Bank is proud to reflect the community banking at its best!
